

Life just got a whole lot easier...

SUITABLE FOR
DRIVE ON
TRAILER BOATS

Recover
EZY
PRODUCTS

That is if you install a **Recover-EZY**

Recover-EZY is the simplest and best aid to 'single-handed' boat recovery for drive-on trailer boats available.

With the **Recover-EZY** installed you will be able to drive your boat on and off the trailer on your own, with ease, taking away a lot of the frustration.

The **Recover-EZY** requires just 2 bolt holes to be drilled in the winch post and a simple replacement of or attachment to the tow hook on the boat.

The **Recover-EZY** is flexible, versatile, inexpensive and corrosive resistant, unlike other recovery aid devices.

Make boating fun and avoid those difficult and embarrassing moments at the ramp, install a **Recover-EZY** today!
